

## ■ The SoFi Reinvestment Funnel

A Bossed Up Simulations + The Group Financial Services Initiative

### Step 1 – Earn Free Sign-Up Bonuses

- SoFi Online Banking: \$50 bonus when you open and fund your account.
- Upside Cashback App: Earn on gas, groceries & restaurants ( $\approx$  \$150 per year per person).

### Step 2 – Watch Videos & Get Paid

Convert screen time into extra income:

- Swagbucks / InboxDollars / MyPoints – Earn small cash for sponsored clips.
- Hideout.tv / Loot.tv – Watch YouTube-style videos with ads  $\rightarrow$  points  $\rightarrow$  PayPal/gift cards.
- Current Rewards App – Earn  $\approx$  \$1–\$5 per week from streaming or watching.

### Step 3 – Pool Your Free Money

Source	Annual Estimate
SoFi bonus	\$50
Upside rewards	\$150
Watch-to-earn apps	$\approx$ \$50
Total Free Money	$\approx$ \$250 per person per year

Build community wealth by repeating this cycle across 10, 100, or 1,000 participants.

### Step 4 – Invest & Grow

Use your SoFi account (or other brokerage) to invest your pooled money into:

- ETFs / Index Funds: Diversified, long-term growth.
- REITs: Passive real-estate income.
- Group Portfolios: Shared investment funds among trusted members.

Repeat monthly or annually  $\rightarrow$  Sign Up  $\rightarrow$  Earn  $\rightarrow$  Pool  $\rightarrow$  Invest  $\rightarrow$  Grow.

### Step 5 – Convert & Build Abroad

#### ■ End Goal: Build Infrastructure in Africa

The ultimate mission is to transform micro-bonuses and cashback earnings into macro-impact — funding real infrastructure projects in Africa (solar grids, clean-water systems, education centers, and tech hubs). By circulating “free money” globally, we create Black-owned international investment pipelines.

### Safest & Most Efficient Ways to Exchange Currency

1. Multi-Currency Accounts – Use trusted fintech banks like Wise (TransferWise) or Revolut Business.
2. SoFi Invest + Wise Bridge – Withdraw profits from SoFi  $\rightarrow$  Wise  $\rightarrow$  convert  $\rightarrow$  send to verified foreign accounts.
3. U.S. Brokerage with Foreign ETFs – Buy Africa-focused ETFs (AFK, AFRI) directly without wiring abroad.

4. Crypto Rails (Advanced) – Use stablecoins (USDC/USDT) on regulated exchanges (Coinbase/Kraken) to fund projects, converting locally via trusted on-ramps like Yellow Card or Binance P2P Africa.

■ Always avoid unlicensed money transfer apps and verify all recipients are tied to legitimate entities.
